Our Company has not issued any Equity Shares for consideration other than cash during the last 1 (One) year immediately preceding the date of filing this Letter of Offer.

SECTION III – RISK FACTORS

An investment in our Equity Shares involves a high degree of risk. You should carefully consider each of the following risk factors and all other information set forth in this Letter of Offer, including in ‘Business Overview’, ‘Industry Overview’, and ‘Financial Statements’ beginning on pages 51, 49, and 60 respectively in this Letter of Offer, before making an investment in our Equity Shares.

The risks and uncertainties described below are not the only risks that we currently face; additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also adversely affect our business, financial condition, results of operations, and cash flows. If any or some combination of the following risks, or other risks that are not currently known or believed to be adverse, actually occur, our business, financial condition, and results of operations could suffer, the trading price and the value of your investment in, our Equity Shares could decline and you may lose all or part of your investment. To the extent the COVID-19 pandemic has adversely affected and may affect our business and financial results, it may also have the effect of increasing many of the other risks described in this section, such as those relating to non-payment or default by borrowers. In making an investment decision with respect to this Issue, you must rely on your own examination of our Company and the terms of this Issue, including the merits and risks involved. You should consult your tax, financial, and legal advisors about the consequences of an investment in our Equity Shares and its impact on you.

This Letter of Offer also contains forward-looking statements that involve risks and uncertainties. Our results could differ materially from such forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Letter of Offer.

Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section. Unless the context otherwise requires, in this section, reference to ‘we’, ‘us’, ‘our’ refers to our Company.

INTERNAL RISK FACTORS

1. ***We require certain approvals and licenses in the ordinary course of business and are required to comply with certain rules and regulations to operate our business, and the failure to obtain, retain and renew such approvals and licenses or comply with such rules and regulations, and the failure to obtain or retain them in a timely manner or at all may adversely affect our operations.***

We require several statutory and regulatory approvals, licenses, registrations and permits to operate our business, some of which our Company has either received or is likely to receive in due course. Many of these approvals, licenses, registrations and permits are granted for fixed periods of time and need renewal from time to time. Non-renewal of the said permits and licenses would adversely affect our Company’s operations, thereby having a material adverse effect on our business, results of operations and financial condition. There can be no assurance that the relevant authorities will issue any of such permits or approvals in the time-frame anticipated by us or at all. Further, some of these approvals, licenses, registration and permits are subject to several conditions and we cannot provide any assurance that we will be able to continuously meet such conditions or be able to prove compliance with such conditions to the statutory authorities, which may lead to the cancellation, revocation or suspension of relevant approvals, licenses, registrations and permits. Any failure to apply for and obtain the required approvals, licenses, registrations or permits in a timely manner, or any suspension or revocation of any of the approvals, licenses, registrations and permits would result in a delay in our business operations which could otherwise adversely affect our financial condition, results of operations and prospects of the Company. We cannot assure you that the approvals, licenses, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. In addition to same, our failure to comply with existing or increased regulations, or the introduction of changes to existing regulations, could adversely affect our business and results of operations. For further details, please refer the chapter titled “Government and Other Statutory Approvals” beginning on page 95 of this Letter of Offer.

2. ***Increase in the cost of, or a shortfall in the availability of our raw materials could have an adverse effect on our business, results of operations and financial condition.***

Aluminum or Alloy Rods are the main raw material used to produce conductors. The price and availability of these raw materials depend on several factors beyond our control, including overall economic conditions, production levels, market demand and competition for such materials, production and transportation cost, duties and taxes and trade restrictions. We usually do not enter into long term supply contracts with our raw material suppliers and typically place orders with them after firm-orders are received by us. The absence of long term contracts at fixed prices exposes us to volatility in the prices of raw materials that we require. If we are unable to compensate for or pass on our increased costs to end-customer, such price increases could have an adverse impact on our result of operations, financial condition and cash flows. Further, our suppliers may be unable to provide us with a sufficient quantity of our raw material at a suitable price for us to meet the demand for our products. Additionally, there is a risk that our existing suppliers could discontinue its operations, which could adversely impact our ability to source raw materials at a suitable price and meet our order requirements. Identifying a suitable supplier or any delay, interruption or increased cost in the supply of

raw materials pertaining to our products arising from a lack of long-term contracts could have an adverse effect on our ability to meet customer demand for our products and result in lower revenue from operations both in the short and long term.

3. *Our revenues are significantly dependent upon sales of our main products that are AAAC Conductor and ACSR Conductor.*

Our core business is the manufacture of AAAC Conductor and ACSR Conductor. Consequently, our income is significantly dependent on sales of the AAAC Conductor over the years, such sales have emerged as the major contributor to our revenue and business. Our continued reliance on sales of our products for a significant portion of our revenue exposes us to risks, including the potential reduction in the demand for such products in the future; increased competition from domestic and regional manufacturers; cost-effective technology; and fluctuations in the price and availability of the raw materials. One or more such reasons may affect our revenues and income from sales of our products and thereby adversely affect our business, profitability, cash flows and results of operations.

4. *We are dependent on a few suppliers for our entire requirement of raw materials.*

The major raw materials required to carry the manufacturing activities are Aluminium/ Alloy Rods. Our Company procures the same entirely from a few suppliers with whom we have not long term contracts. Any disruption of our arrangement with these few suppliers could adversely affect our business and operations.

5. *We operate in the power transmission industry which is a highly technical and regulated sector and if we fail to comply with the regulations prescribed or standards set by our customers, our business, results of operations, cash flows and financial condition could be adversely affected.*

Our operations of manufacturing conductors, forming part of the power transmission industry, are operated in a highly technical and regulated sector and is subject to stringent quality standards. The products manufactured by us need to comply with certain standards as prescribed by the Bureau of Indian Standards (BIS). The registration requires our Company to comply with the specific provisions of various acts enforceable by the BIS for power transmission, most of which are stringent and they may continue to be stricter in the future. The penalties for non-compliance with these regulations can vary from revocation or suspension of the registration to imposition of fines or confiscation of the products manufactured, stored or sold. These regulations are not only required to be adhered to as part of our regulatory mandate but also technical specifications and pre-qualifications of our products is a substantial issue for our customers. Our customers, who are into the power transmission, real estate and other industrial sector, prefer products that adhere to strict standards and regulations and hence variations in product quality could result in loss of a substantial customer. We hold license from the Bureau of Indian Standards confirming that all our products meet the specified requirements. However, we cannot guarantee that these licenses will be available to us in future or they will be renewed in proper time. Consequently, there is an increased risk that we may inadvertently fail to comply with such regulations or procedures, which could lead to a variety of sanctions being imposed by the relevant authorities, as well as withholding or delay in further production process. Further, any adverse change in the regulatory environment or client procedures in the future may subject us to increased obligations and may adversely affect our business, cash flows and results of operations.

6. *Our business is dependent on our continuing relationships with our customers, with whom we have not entered into any long term agreements. Further, we have been procuring business from Government entities, which are undertaken through bidding process and failure to procure such tenders on a continuous basis could adversely impact our revenues and profitability.*

We generate sales by subscribing to and fulfilling tenders invited by State run electricity companies and by selling to certain private institutions. In case of sales to Government Companies, our company bids in the prospective tenders where bidders are scrutinized for technical and financial qualifications. Quality and reliability of the products, competitive bids at which the tenders are subscribed, ability to perform the tenders within time, etc. are some of the major criteria upon which the government companies awards the tender. Our Company has had long standing business relationships with certain customers and has been supplying our products to such customers, for several years. We have developed a long standing relationship with our clients. However, we have not entered into any contracts with any of our customers and we cater to them on an order-by-order basis. As a result, our customers can terminate their relationships with us without any notice, which could materially and adversely impact our business. There is no assurance that we will be able to obtain continuous business, get awarded with tenders every time or at all. The loss of interruption of work, by a significant customer or a number of significant customers or the inability to procure tender contracts on a regular basis or at all may have an adverse effect on our revenues, cash flows and operations.

7. *The loss, shutdown or slowdown of operations at any of our facilities or the under-utilization of any such facilities may have a material effect on our results of operations and financial condition.*

Our business and results of operations are dependent on our ability to effectively plan our manufacturing processes and on our ability to optimally utilize our manufacturing capacities for the various industrial components we manufacture. Any disruption to our manufacturing process or the operation of our production facilities may result from various factors beyond our control, including, among others, the following:

- Utility supply disturbances, particularly power supply;
- Forced close down or suspension of our manufacturing facilities due to factors such as breakdown or failure of equipment, performance below expected levels of output or efficiency, facility obsolescence or disrepair, natural disasters and industrial accidents;
- Other production or distribution problems, including limitations to production capacity due to regulatory requirements, changes in the types of components produced or physical limitations that could impact continuous supply.

If we fail to take adequate steps to mitigate the potential impact of these events, or to effectively respond to these events if they occur, our business, results of operations and financial condition could be materially affected. Further, we depend upon our suppliers and vendors to provide the necessary equipment and machinery that we need for our continuing operations and maintenance of our facilities, plant and machinery. We cannot assure you that we will be able to continue to obtain equipment on commercially acceptable terms, or at all, or that our vendors will continue to enter into or honor the contracts for their services. Our inability to continue to obtain equipment and enter into contracts with our vendors in a timely manner, or at all, could affect our business and results of operations.

8. *Our Registered Office is not owned by us. The same is occupied by us on lease basis. Disruption of our rights as licensee/ lessee or termination of the agreements with our licensors/ lessors would adversely impact our operations and, consequently, our business.*

Our Registered Office from where we operate is not owned by our Company. Our Company has been occupying the Registered Office on leasehold basis through a deed of lease entered into by our Company with the Governor of Madhya Pradesh acting through the General Manager District Industries Centre for a period of 30 years ending on May 2035. Further, the lease is subject to certain terms and conditions and any non-compliance of the same may lead to the termination of the lease which may have a material adverse effect on our operations and there can be no assurance that the renewal of the lease will be entered into. In the event the lease is not renewed, we may be required to shift our Registered Office to a new location and there can be no assurance that the arrangement our Company will enter into in respect of the new premises would be on such terms and conditions as the present one.

9. *Orders placed by customers may be delayed, modified, cancelled or not fully paid by our customers, which may have an adverse effect on our business, financial condition and results of operations.*

We may encounter problems in executing the orders in relation to our products, or executing it on a timely basis. Moreover, factors beyond our control or the control of our customers may result in the postponement of the delivery of products or cause its cancellation. Accordingly, it is difficult to predict with certainty that, when, and to what extent we may be able to deliver the orders placed. Further, we may be bound to certain terms in the contracts entered with the customers any non-adherence to the same may lead to breach of the contract, which may subject us to penalties and liquidated damages. Any failure to adhere to the conditions which may be beyond our control may subject us to liquidated damages which could have an effect on the result of operation and cash flow. However, we have always followed policy of timely delivery of goods, execution of orders and ensuring customer satisfaction.

10. *All our manufacturing facilities are located at Indore, Madhya Pradesh or within its immediate vicinity.*

We manufacture our products from our manufacturing facilities which are located at Indore, Madhya Pradesh or within its immediate vicinity. Therefore, any localized social unrest, natural disaster or breakdown of services or any other natural disaster could have material adverse effect on our business and financial condition. Any disruption in the operations due to supply of power, fire outages or industrial accidents at the units could hamper or delay our ability to continue production and servicing. Further, our manufacturing facility is also subject to operating risk arising from compliance with the directives of relevant government authorities. Any disruption or suspension in the production process in this facility can significantly impact our ability to service

customer needs and relation with our customers and have a material adverse effect on our business, revenues, reputation, results of operation and financial condition.

11. ***Our success depends largely upon the services of our Directors, Promoters and other Key Management Personnel and our ability to attract and retain them. Demand for Key Management Personnel in the industry is intense and our inability to attract and retain Key Management Personnel may affect the operations of our Company.***

Our success is substantially dependent on the expertise and services of our Directors, Promoters and our Key Managerial Personnel. They provide expertise which enables us to make well informed decisions in relation to our business and our future prospects. Our future performance will depend upon the continued services of these persons. Demand for Key Managerial Personnel in the industry is intense. We cannot assure you that we will be able to retain any or all, or that our succession planning will help to replace, the key members of our management. The loss of the services of such key members of our management team and the failure of any succession plans to replace such key members could have an adverse effect on our business and the results of our operations. For further details of our Directors and key managerial personnel, please refer to the chapter titled "Our Management" beginning on page 56 of this Letter of Offer.

12. ***Our Company is dependent on third party transportation providers for the delivery of raw materials/ finished products and any disruption in their operations or a decrease in the quality of their services could affect our Company's reputation and results of operations.***

Our Company uses third party transportation providers for delivery of our raw materials and finished products. Though our business has not experienced any disruptions due to transportation strikes in the past, any future transportation strikes may have an adverse effect on our business. These transportation facilities may not be adequate to support our existing and future operations. In addition raw materials/ finished products may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery of products which may also affect our business and results of operation negatively. An increase in the freight costs or unavailability of freight for transportation of our raw materials may have an adverse effect on our business and results of operations.

Further, disruptions of transportation services due to weather-related problems, strikes, lock-outs, inadequacies in the road infrastructure and port facilities, or other events could impair ability to procure raw materials on time. Any such disruptions could materially and adversely affect our business, financial condition and results of operations.

13. ***We are subjected to penalties and liquidated damages in case of contracts entered into with Government entities in case of default. Further, we may be liable to terminate such contracts in case of breach of certain terms and conditions.***

We are subjected to penalties or liquidated damages in case of contracts entered into with the Government entities. Any failures to adhere to a contractually agreed schedule for reasons other than the agreed *force majeure* events could result in us being required to pay liquidated damages. Further, we are bound by certain contractual liabilities for not adhering to conditions mentioned in the contract. Any delay in adhering to a specified delivery schedule or breaching other terms of contract may adversely profitability, working capital requirements, and cash flows and may also lead to termination of contracts in some instances. Further, such instances may also affect our ability and chances to be awarded with such tenders in future.

14. ***Negative publicity with respect to our products or the industry in which we operate could adversely affect our business, financial condition and results of operations.***

Our business is dependent on the trust our customers have in the quality of our products. Any negative publicity regarding us, our products i.e., conductors and industry generally could adversely affect our reputation and our results of operations. Challenges to the conflict-free status of conductors used in our industry and sold by us may result in a negative change in consumer attitudes to conductors and could result in negative publicity, having a material adverse effect on our business, financial condition and results of operations.

15. ***Inventories and trade receivables form a major part of our current assets and net worth. Failure to manage our inventory and trade receivables could have an adverse effect on our net sales, profitability, cash flow and liquidity.***

We are in the business of manufacturing of conductors. Our Company's business is working capital intensive and hence, inventories and trade receivables form a major part of our current assets and net worth. The results of operations of our business are dependent on our ability to effectively manage our inventory (traded goods, raw materials and finished goods) and trade receivables.

To effectively manage our inventory, we must be able to accurately estimate customer demand / potential orders and supply requirements and purchase new inventory accordingly. However, if our management misjudges expected customer demand / potential orders, it could cause either a shortage of products or an accumulation of excess inventory. Further, if we fail to convert the inventory we purchase by manufacturing our products, we may be required to write-down our inventory or pay our suppliers without new purchases, or create additional vendor financing, all of which could have an adverse impact on our income and cash flows. To effectively manage our trade receivables, we must be able to accurately evaluate the credit worthiness of our customers and dealers and ensure that suitable terms and conditions are given to them in order to ensure our continued relationship with them. However, if our management fails to accurately evaluate the credit worthiness of our customers, it may lead to bad debts, delays in recoveries and / or write-offs which could lead to a liquidity crunch, thereby adversely affecting our business and results of operations. A liquidity crunch may also result in case of increased working capital borrowings and, consequently, higher finance cost which will adversely impact our profitability.

16. *Our operations may be adversely affected in case of industrial accidents at our production facility.*

Usage of heavy machinery, handling of materials by labour during production process or otherwise, lifting of materials by humans, cranes, heating processes of the furnace etc. may result in accidents, which could cause injury to our labour, employees, other persons on the site and could also damage our properties thereby affecting our operations. Therefore, although we take steps to ensure safety, accidents, including human fatalities, may occur and there can be no assurance that our safety measures and the precautions undertaken will be completely effective or sufficient.

Further, if we fail to maintain adequate insurance cover in relation to the foregoing, a claim filed by us with our insurer is rejected, a loss occurs, which does not fall under the insurance cover maintained by us, or our claim is subject to any deductible or delay in settlement, amongst other things, our exposure will increase. Any accident at our area of operations could also harm our reputation. Such accidents may have an impact on our business.

17. *Changes in technology may render our current technologies obsolete or require us to make substantial capital investments.*

Modernization and technology upgradation is essential to provide better products. Although we strive to keep our technology in line with the latest standards, we may be required to implement new technology or upgrade the existing technology employed by us. Further, the costs in upgrading our technology could be significant which could substantially affect our finances and operations.

18. *We have significant power requirements for continuous running of our factories. Any disruption to our operations on account of interruption in power supply or any irregular or significant hike in power tariffs may have an effect on our business, results of operations and financial condition.*

Our factories and registered office have significant electricity requirements and any interruption in power supply to our factories and offices may disrupt our operations. Our business and financial results may be affected by any disruption of operations. We depend on third parties for all of our power requirements. Further, we have limited options in relation to maintenance of power back-ups such as diesel generator sets and any increase in diesel prices will increase our operating expenses which may impact our business margins.

Since we have significant power consumption, any unexpected or significant increase in its tariff can increase the operating cost of factories and offices. There are limited number of electricity providers in area from where we operate due to which in case of a price hike we may not be able to find a cost-effective substitute, which may negatively affect our business, financial condition and results of operations.

19. *We are subject to the restrictive covenants of banks in respect of the Loans/ Credit Limits and other banking facilities availed from them.*

Our financing arrangements contain restrictive covenants whereby we are required to obtain approval from our lender, regarding, among other things such as, all future borrowings, undertake any guarantee obligation etc. There can be no assurance that such consents will be granted or that we will be able to comply with the financial covenants under our financing arrangements. In the event we breach any financial or other covenants contained in any of our financing arrangements, we may be required under the terms of such financing arrangements to immediately repay our borrowings either in whole or in part, together with any related costs. This may adversely impact our results of operations and cash flows. For further details on our banking facilities, please refer to the chapter titled "Statement of Financial Indebtedness" beginning on page 60 of the Letter Of Offer.

20. *Obsolescence, destruction, theft, breakdowns of our major plants or machineries or failures to repair or maintain the same may affect our business, cash flows, financial condition and results of operations.*

Obsolescence, destruction, theft or breakdowns of our major plants or machineries may significantly increase our machineries purchase cost and the depreciation of our plants and machineries, as well as change the way our management estimates the useful life of our plants and machineries. In such cases, we may not be able to acquire new plants or machineries or repair the damaged plants or machineries in time or at all, particularly where our plants or machineries are not readily available from the market or require services from original machinery manufacturers.

21. *Our operations are subject to environmental, health and safety laws and regulations.*

Our operations are subject to various Central and State environmental laws and regulations relating to the control of pollution in the area where we operate. In particular, the discharge or emission of chemicals, dust or other pollutants into the air, soil or water that exceed permitted levels and cause damage to others may give rise to liability to the Government and third parties, and may result in our incurring costs to remedy such discharge or emissions. There can be no assurance that compliance with such environmental laws and regulations will not result in a curtailment of operations, or a material increase in the costs of operations, or otherwise have a material adverse effect on the financial condition and results of our operations. Environmental laws and regulations in India have been increasing in stringency and it is possible that they will become significantly more stringent in the future. Stricter laws and regulations, or stricter interpretation of the existing laws and regulations, may impose new liabilities on us or result in the need for additional investment in pollution control equipment, either of which could adversely affect our business, financial condition or prospects. While as of the date of this Letter of Offer, we are not subject to any environmental legal proceedings, we may be impleaded in such legal proceedings in the course of our business. Such legal proceedings could divert management time and attention, and consume financial resources in defense or prosecution of such legal proceedings or cause delays in the production, development or commencement of operations of our projects. No assurance can be given that we will be successful in all, or any, of such proceedings.

ISSUE SPECIFIC FACTORS

1. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.*

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renouncees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncees prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renouncee will not be able to apply in this Issue with respect to such Rights Entitlements.

2. *The Rights Entitlement of Physical Shareholders may lapse in case they fail to furnish the details of their demat account to the Registrar.*

In accordance with the SEBI Circular bearing reference number 'SEBI/HO/CFD/DIL2/CIR/P/2020/13' dated January 22, 2020, the credit of Rights Entitlements and Allotment of Right Shares shall be made in dematerialised form only. Accordingly, the Rights Entitlements of the Physical Shareholders shall be credited in a suspense escrow demat account opened by our Company during the Issue Period. The Physical Shareholders are requested to furnish the details of their demat account to the Registrar not later than 2 (Two) Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their demat accounts at least 1 (One) day before the Issue Closing Date. The Rights Entitlements of the Physical Shareholders who do not furnish the details of their demat account to the Registrar not later than 2 (Two) Working Days prior to the Issue Closing Date, shall lapse. Further, pursuant to a press release dated December 03, 2018 issued by the SEBI, with effect from April 01, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of Equity Shares).

3. *The Physical Shareholders will have no voting rights in respect of Rights Shares until they provide details of their demat account and Rights Shares are transferred to such demat account from the demat suspense account thereafter.*

The Rights Shares will be credited to a demat suspense account to be opened by our Company, in case of Allotment in respect of resident Physical Shareholders and who have not provided the details of their demat account to the Registrar or our Company at least 2 (two) Working Days prior to the Issue Closing Date. Such Eligible Shareholders are required to send, amongst others, details of their demat accounts to our Company or the Registrar to enable our Company to transfer, after verification of the details of such demat account by the Registrar, the Rights Shares from the demat suspense account to the demat accounts of such Eligible

Shareholders. Unless and until such Eligible Shareholders provide details of their demat account and the Rights Shares are transferred from demat suspense account to such demat accounts thereafter, they will have no voting rights in respect of Rights Shares. For further details, kindly refer to the section titled '**Terms of the Issue**' beginning on page 102 of this Letter of Offer.

4. ***SEBI has recently, by way of Rights Issue Circulars streamlined the process of rights issues. You should follow the instructions carefully, as stated in such SEBI circulars and in this Letter of Offer.***

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI Rights Issue Circulars and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. For details, see '**Terms of the Issue**' on page 102 of this Letter of Offer.

In accordance with Regulation 77A of the SEBI (ICDR) Regulations read with the SEBI Rights Issue Circular, the credit of Rights Entitlements and Allotment of Right Shares shall be made in dematerialized form only. Prior to the Issue Opening Date, our Company shall credit the Rights Entitlements to (i) the demat accounts of the Eligible Shareholders holding the Equity Shares in dematerialised form; and (ii) a demat suspense escrow account (namely being GODHA CABCON - RIGHTS ESCROW ACCOUNT') opened by our Company, for the Eligible Shareholders which would comprise Rights Entitlements relating to:

- (a) Equity Shares held in a demat suspense account pursuant to Regulation 39 of the SEBI (LODR) Regulations; or
- (b) Equity Shares held in the account of IEPF authority; or
- (c) The demat accounts of the Eligible Equity Shareholder which are frozen or suspended for debit or credit or details of which are unavailable with our Company or with the Registrar on the Record Date; or
- (d) Equity Shares held by Eligible Equity Shareholders holding Equity Shares in the physical form on the Record Date the details of demat accounts are not provided by Eligible Equity Shareholders to our Company or Registrar; or
- (e) Credit of the Rights Entitlements returned/reversed/failed; or
- (f) The ownership of the Equity Shares currently under dispute, including any court proceedings.

5. ***Any future issuance of Equity Shares, or convertible securities or other equity-linked securities by our Company may dilute your shareholding and any sale of Equity Shares by our Promoter or members of our Promoter Group may adversely affect the trading price of the Equity Shares.***

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by our Company may dilute your shareholding in our Company; adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. We cannot assure you that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our Promoter and Promoter Group, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that our Promoter and Promoter Group will not dispose of, pledge or encumber their Equity Shares in the future.

6. ***You may be subject to Indian taxes arising out of capital gains on the sale of the Right Shares and Rights Entitlement.***

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares of an Indian Company are generally taxable in India. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 (Twelve) months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the Equity Shares may be partially or completely exempt from taxation in India in cases where such exemption is provided under a treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on gains made upon the sale of the Equity Shares.

Further, the Finance Act, 2019, which has been notified with effect from April 01, 2019, stipulates the sale, transfer and issue of securities through exchanges, depositories or otherwise to be charged with stamp duty. The Finance Act has also clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, and the onus will be on the transferor. The stamp duty for transfer of securities other than debentures, on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount. These amendments have been notified on December 10, 2019 and have come into effect from July 01, 2020.

The Finance Act, 2020 has also provided a number of amendments to the direct and indirect tax regime, including, without limitation, a simplified alternate direct tax regime and that dividend distribution tax will not be payable in respect of dividends declared, distributed or paid by a domestic company after March 31, 2020, and accordingly, such dividends would not be exempt in the hands of the shareholders, both resident as well as non-resident.

7. ***You may not receive the Equity Shares that you subscribe in the Issue until 15 (Fifteen) days after the date on which this Issue closes, which will subject you to market risk.***

The Equity Shares that you subscribe in the Issue may not be credited to your demat account with the depository participants until approximately 15 (Fifteen) days from the Issue Closing Date. You can start trading such Equity Shares only after receipt of the listing and trading approval in respect thereof. There can be no assurance that the Equity Shares allocated to you will be credited to your demat account, or that trading in the Equity Shares will commence within the specified time period, subjecting you to market risk for such period.

8. ***There is no guarantee that our Equity Shares will be listed in a timely manner or at all which may adversely affect the trading price of our Equity Shares.***

In accordance with Indian law and practice, final approval for listing and trading of the Equity Shares will not be granted by NSE until after those Equity Shares have been issued and allotted. Approval will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on NSE. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares. Further, historical trading prices, therefore, may not be indicative of the prices at which the Equity Shares will trade in the future which may adversely impact the ability of our shareholders to sell the Equity Shares or the price at which shareholders may be able to sell their Equity Shares at that point of time.

9. ***Holders of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.***

Under the Companies Act, any Company incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the shares voted on such resolution, unless our Company has obtained government approval to issue without such rights. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in us would be reduced.

10. ***Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may adversely affect the value of our Equity Shares, independent of our operating results.***

On listing, our Equity Shares will be quoted in Rupees on the Stock Exchange. Any dividends in respect of our Equity Shares will also be paid in Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by equity shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may adversely affect the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

11. ***Sale of Equity Shares by our Promoters or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.***

Any instance of disinvestments of equity shares by our Promoter or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

12. ***Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.***

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a Company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian Company than as shareholder of a corporation in another jurisdiction.

EXTERNAL RISK FACTORS

1. *The outbreak of Novel Coronavirus, or outbreak of any other severe communicable disease could have a potential impact on our business, financial condition and results of operations.*

The outbreak, or threatened outbreak, of any severe epidemic caused due to viruses (particularly the Novel Coronavirus) could materially adversely affect overall business sentiment and environment, particularly if such outbreak is inadequately controlled. The spread of any severe communicable disease may also adversely affect the operations of our customers and suppliers, which could adversely affect our business, financial condition and results of operations. The outbreak of Novel Coronavirus has resulted in authorities implementing several measures such as travel bans and restrictions, quarantines, shelter in place orders, and shutdowns. These measures have impacted and may further impact our workforce and operations, the operations of our customers, and those of our respective vendors and suppliers. There is currently substantial medical uncertainty regarding Novel Coronavirus. A rapid increase in severe cases and deaths where measures taken by governments fail or are lifted prematurely, may cause significant economic disruption in India and in the rest of the world. The scope, duration and frequency of such measures and the adverse effects of Novel Coronavirus remain uncertain and could be severe. Our ability to meet our ongoing disclosure obligations might be adversely affected, despite our best efforts. If any of our employees were suspected of contracting Novel Coronavirus or any other epidemic disease, this could require us to quarantine some or all of these employees or disinfect the facilities used for our operations. In addition, our revenue and profitability could be impacted to the extent that a natural disaster, health epidemic or other outbreak harms the Indian and global economy in general.

The outbreak has significantly increased economic uncertainty. It is likely that the current outbreak or continued spread of Novel Coronavirus will cause an economic slowdown and it is possible that it could cause a global recession. The spread of Novel Coronavirus has caused us to modify our business practices (including employee travel, employee work locations, and cancellation of physical participation in meetings, events and conferences), and we may take further actions as may be required by government authorities or that we determine are in the best interests of our employees, customers, partners, and suppliers. There is no certainty that such measures will be sufficient to mitigate the risks posed by the outbreak, and our ability to perform critical functions could be harmed.

The extent to which the Novel Coronavirus further impacts our results will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and the actions taken globally to contain the coronavirus or treat its impact, among others. Existing insurance coverage may not provide protection for all costs that may arise from all such possible events. We are still assessing our business operations and system supports and the impact Novel Coronavirus may have on our results and financial condition, but there can be no assurance that this analysis will enable us to avoid part or all of any impact from the spread of Novel Coronavirus or its consequences, including downturns in business sentiment generally or in our sector in particular. The degree to which Novel Coronavirus impacts our results will depend on future developments, which are highly uncertain and cannot be predicted, including, but not limited to, the duration and spread of the outbreak, its severity, the actions taken to contain the outbreak or treat its impact, and how quickly and to what extent normal economic and operating conditions can resume. The above risks can threaten the safe operation of our facilities and cause disruption of operational activities, environmental harm, and loss of life, injuries and impact the wellbeing of our people.

Further in case the lockdown is extended, it could result in muted economic growth or give rise to a recessionary economic scenario, in India and globally, which could adversely affect the business, prospects, results of operations and financial condition of our Company.

2. *Significant differences exist between Ind AS, Indian GAAP and other accounting principles, such as US GAAP and International Financial Reporting Standards ('IFRS'), which investors may be more familiar with and consider material to their assessment of our financial condition.*

The Financial Statements of our Company for the Financial Year ending March 31, 2022, March 31, 2021, and March 31, 2020, have been prepared in accordance with the GAAP, the Companies Act, 2013.

We have not attempted to quantify the impact of US GAAP, IFRS or any other system of accounting principles on the financial data included in this Letter of Offer, nor do we provide a reconciliation of our financial statements to those of US GAAP, IFRS or any other accounting principles. US GAAP and IFRS differ in significant respects from Ind AS and Indian GAAP. Accordingly, the degree to which the Financial Information included in this Letter of Offer will provide meaningful information is entirely dependent on the reader's level of familiarity with Ind AS, Indian GAAP and the SEBI (ICDR) Regulations. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Letter of Offer should accordingly be limited.

3. *Political, economic or other factors that are beyond our control may have adversely affect our business and results of operations.*

The Indian economy is influenced by economic developments in other countries. These factors could depress economic activity which could have an adverse effect on our business, financial condition and results of operations. Any financial disruption could have an adverse effect on our business and future financial performance.

We are dependent on domestic, regional and global economic and market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. There have been periods of slowdown in the economic growth of India. Demand for our services may be adversely affected by an economic downturn in domestic, regional and global economies.

Economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports, global economic uncertainty and liquidity crisis, and volatility in exchange currency rates, and annual rainfall which affects agricultural production.

Consequently, any future slowdown in the Indian economy could harm our business, results of operations and financial condition. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

4. *A slowdown in economic growth in India could cause our business to suffer.*

We are incorporated in India, and all of our assets and employees are located in India. As a result, we are highly dependent on prevailing economic conditions in India and our results of operations are significantly affected by factors influencing the Indian economy. A slowdown in the Indian economy could adversely affect our business, including our ability to grow our assets, the quality of our assets, and our ability to implement our strategy.

Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

- (a) Any increase in Indian interest rates or inflation;
- (b) Any scarcity of credit or other financing in India;
- (c) Prevailing income conditions among Indian consumers and Indian corporations;
- (d) Changes in India's tax, trade, fiscal or monetary policies;
- (e) Political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighbouring countries;
- (f) Prevailing regional or global economic conditions; and
- (g) Other significant regulatory or economic developments in or affecting India.

Any slowdown in the Indian economy or in the growth of the sectors we participate in or future volatility in global commodity prices could adversely affect our borrowers and contractual counterparties. This in turn could adversely affect our business and financial performance and the price of our Equity Shares.

5. *Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, prospects and results of operations.*

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes, including the instances mentioned below, may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

The Government of India has issued a notification dated September 29, 2016 notifying Income Computation and Disclosure Standards (hereinafter referred to as '**ICDS**'), thereby creating a new framework for the computation of taxable income. The ICDS became applicable from the assessment year for Fiscal 2018 and subsequent years. The adoption of ICDS is expected to significantly alter the way companies compute their taxable income, as ICDS deviates from several concepts that are followed under general accounting standards, including Indian GAAP and Ind AS. In addition, ICDS shall be applicable for the computation of income for tax purposes but shall not be applicable for the computation of income for minimum alternate tax. There can be no assurance that the adoption of ICDS will not adversely affect our business, results of operations and financial condition.

The General Anti Avoidance Rules (hereinafter referred to as '**GAAR**') have been made effective from April 1, 2017. The tax consequences of the GAAR provisions being applied to an arrangement could result in denial of tax benefit amongst other consequences. In the absence of any precedents on the subject, the application of these provisions is uncertain. If the GAAR provisions are made applicable to our Company, it may have an adverse tax impact on us.

A comprehensive national GST regime that combines taxes and levies by the Central and State Governments into a unified rate structure, which came into effect from July 1, 2017. We cannot provide any assurance as to any aspect of the tax regime following implementation of the GST. Any future increases or amendments may affect the overall tax efficiency of companies operating in

India and may result in significant additional taxes becoming payable. If, as a result of a particular tax risk materializing, the tax costs associated with certain transactions are greater than anticipated, it could affect the profitability of such transactions.

In addition, unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment laws governing our business, operations and group structure could result in us being deemed to be in contravention of such laws or may require us to apply for additional approvals. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

Any increase in taxes and levies, or the imposition of new taxes and levies in the future, could increase the cost of production and operating expenses. Taxes and other levies imposed by the central or state governments in India that affect our industry include customs duties, excise duties, sales tax, income tax and other taxes, duties or surcharges introduced on a permanent or temporary basis from time to time. The central and state tax scheme in India is extensive and subject to change from time to time. Any adverse changes in any of the taxes levied by the central or state governments may adversely affect our competitive position and profitability.

6. ***Financial instability in both Indian and international financial markets could adversely affect our results of operations and financial condition.***

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the United States and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have an adverse effect on the securities of companies in other countries. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in the Indian economy in general. Any global financial instability, including further deterioration of credit conditions in the U.S. market, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our results of operations and financial condition.

The Indian economy is also influenced by economic and market conditions in other countries. This includes, but is not limited to, the conditions in the United States, Europe and certain economies in Asia. Financial turmoil in Asia and elsewhere in the world in recent years has affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and its business.

Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby impact the Indian economy. Financial disruptions in the future could adversely affect our business, prospects, financial condition and results of operations. The global credit and equity markets have experienced substantial dislocations, liquidity disruptions and market corrections.

There are concerns that a tightening of monetary policy in emerging markets and some developed markets will lead to a moderation in global growth. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, have implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term impact of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have had the intended stabilizing effects. Any significant financial disruption in the future could have an adverse effect on our cost of funding, loan portfolio, business, future financial performance and the trading price of the Equity Shares.

7. ***Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.***

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of salaries, and other expenses relevant to our business.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to pass on to our customers, whether entirely or in part, and the same may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase our rates to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected.

Further, the GoI has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

8. ***Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.***

As an Indian Company, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under FEMA. Such regulatory restrictions limit our financing sources for our projects under development and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted to us without onerous conditions, or at all. Limitations on foreign debt may adversely affect our business growth, results of operations and financial condition.

Further, under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

9. ***The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.***

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business.

Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

10. ***We are subject to regulatory, economic, social and political uncertainties and other factors beyond our control.***

We are incorporated in India and we conduct our corporate affairs and our business in India. Consequently, our business, operations, financial performance will be affected by interest rates, government policies, taxation, social and ethnic instability and other political and economic developments affecting India.

Transmission system plays an important role in supply of power to the consumers through the vital link between the generating stations and the distribution system. The energy resources like coal, hydro and renewable are unevenly distributed in India. Coal reserves are mainly available in Central and Eastern part of the country, whereas hydro energy resources are primarily available in Himalayan Range in the Northern and North-Eastern parts. Renewable resources like wind and solar potential are also mainly concentrated in states like Tamil Nadu, Andhra Pradesh, Karnataka, Rajasthan, Maharashtra, Gujarat & Ladakh etc.

The major load centres of the country are located in central part including Northern, Western and Southern regions. This skewed distribution of resources necessitated development of robust transmission system including establishment of inter-regional corridors for seamless transfer of power from surplus to deficit regions/areas. In this process, it enables access to power generation from anywhere in the country to various consumer spread throughout the country.

The transmission system has expanded over the years for evacuation of power from generating stations to load centre through Intra State and Inter State Transmission System. The progressive integration of regional grids started in 1992, and on 31st December 2013, our country achieved 'ONE NATION'-'ONE GRID'-'ONE FREQUENCY' with synchronous interconnection of Southern Region Grid with rest of the Indian Grid with the commissioning of 765kV Raichur-Solapur Transmission line. However, there were constraints in market operation due to transmission congestion resulting into market splitting and different market prices in different regions. During 2013-14, about 16% of electricity transacted through power exchanges was constrained due to transmission congestion. Further, strategically important Ladakh region was not interconnected with national electricity grid.

The present Government after assuming power in 2014, has given emphasis to have congestion free transmission network, so that there is no constraint in flow of power from surplus region to deficit region. Accordingly, transmission system in the country has been continuously strengthened with addition of transmission lines and inter-regional capacity as under:

	Addition in Transmission line (ckm)	Addition in Transformation capacity (MVA)
FY 2014-15	22,101	65,554
FY 2015-16	28,114	62,849
FY 2016-17	26,300	81,816
FY 2017-18	23,119	86,193
FY 2018-19	22,437	72,705
FY 2019-20	11,664	68,230
FY 2020-21	16,750	57,575
FY 2021-22	14,895	78,982
FY 2022-23 (till Feb'23)	12,261	54,425
Total	177,641	628,329

With the above transmission capacity addition, the country has become one of the largest synchronous interconnected electricity grids in the world with 4,63,758ckm of transmission line and 11,56,105 MVA of transformation capacity (as on Jan'23). Besides, our inter-regional capacity increased by whopping 212% to 1,12,250 MW since 2014.

The above transmission capacity addition has benefitted in development of power sector in the country. Some of the major ones are as under:-

Transmission Congestion, experienced earlier in 2014, along with market splitting has become a rarity now, resulting into discovery of single price across the power market. Volume of electricity that can not be cleared in Power Exchanges as percentage of Unconstrained Clear Volume has reduced to only 0.06% in 2020-21 as compared to 16% in 2013-14.

High Altitude border areas of Ladakh got interconnected with national electricity grid in January 2019 with the commissioning of 220 kV Srinagar- Leh line. This helped the people of Ladakh to get access to 24x7 quality power from the national Grid.

Transmission and Distribution infrastructure of our North Eastern States including Sikkim are strengthened with implementation of two Central Sector Schemes namely, North Eastern Regional Power System Improvement Project (NERPSIP) and Comprehensive Scheme for strengthening of Transmission & Distribution in Arunachal Pradesh and Sikkim. Implementation of these Schemes would improve the reliability of State Electricity Grids of North Eastern Region and enable the end-consumers to draw 24x7 power from the Grid.

Transmission System is playing a catalyst role in energy transition of our country, by extending the grid to renewable rich areas and facilitating the Renewable Energy projects to connect into the grid. Continuing transmission capacity addition has helped in increase of Renewable Energy (excluding hydro) by three times from 35.52 GW in 2014-15 to 104.88 GW in 2021-22.

This huge transmission capacity has facilitated seamless transfer of power from power surplus regions/areas to power deficit regions/areas and thus optimizing the use of generation resources as well as meeting the demands of end consumers without any transmission constraints. Peak and Energy Deficit have reduced to 0.4% in 2020-21 in comparison to more than 4% in 2013-14

Polyvinyl chloride (PVC) capacity in India, effectively doubling India's PVC production to 3.055mn t/yr and reducing its reliance on exports.

India currently produces 1.555 mn t/yr of PVC. The country also imported an average of 1.86mn t/yr of PVC from 2018 to 2021, according to GTT data. But exports have remained almost non-existent as local supply is unable to keep up with demand. This implies that India's estimated average PVC consumption is around 3.415mn t/yr for these four years.

Japan has been India's top PVC supplier, with India importing 378,000t last year. Indian buyers favour Japanese cargoes as these have 0pc import duties, making them more affordable. Taiwan ranks second at 342,000t, followed by China and South Korea at 296,000t and 264,000t respectively.

The new 1.5mn t/yr plant in Jamnagar will shrink India's PVC supply deficit to a mere 365,000 t/yr in 2026, assuming that consumption levels remain the same. India is poised to become almost self-sufficient in 2026 with this new capacity addition.

The small shortfall could be fulfilled by Reliance's petrochemical joint venture with Abu Dhabi's state-owned Adnoc in Ruwais. New site plans indicate that the facility would be able to produce up to 300,000 t/yr of PVC, according to Reliance.

PVC produced in Ruwais will target the local Middle Eastern markets and India. The Comprehensive Economic Partnership Agreement signed earlier this year will cut Indian PVC import duties on cargoes from the UAE to 5pc from 2026. These duty benefits will be on par with cargoes from southeast Asia, which are also subjected to 5pc import duties, increasing the price competitiveness of cargoes from the UAE.

COMPETITIVE STRENGTHS

Regulatory Framework:

India's power transmission market is subject to a complex regulatory framework that includes multiple regulatory bodies at the central and state levels. The regulatory framework includes policies and regulations related to tariff determination, grid standards, safety, and reliability of the power grid. The regulatory environment is complex because the objectives and policies of different regulatory bodies are conflicting and it is difficult to arrive at a consensus. Therefore, along with a conducive and simple framework the Indian Transmission sector also needs to be open to new technology adoption.

Technology:

The power transmission sector in India is rapidly evolving, with new technologies such as HVDC transmission lines, smart grids, and digital technologies being introduced to improve the efficiency and reliability of the power grid. The introduction of new technologies is driving the competition in the market, as companies compete to offer the latest and most advanced solutions. Increased adoption of technology will significantly benefit the organization's operations and give them a competitive advantage in the market.

Competition:

The power transmission market in India is fraught with competition as there are multiple players in the segment. The sector is flooded with entrants who are bidding aggressively to win tenders for power transmission projects and for that they aren't shying away from betting even higher on having the strong technical capability, financial strength, and project execution capabilities to succeed in this market. Additionally, companies are also keen to maintain good relationships with regulatory bodies, customers, and stakeholders to gain an advantage in the market.

Technical Capabilities:

Technical capabilities are critical to success in India's power transmission market. To comprehend the complex nature of it, organizations need to have a deep understanding of the latest technologies and the ability to integrate them into their operations. The adoption of new technologies such as smart grids, advanced monitoring and control systems, and high-efficiency transformers are critical to improving the efficiency and reliability of the power grid. Companies that can offer the latest and most advanced solutions can gain a competitive advantage in the market.

Financial Strength:

Financial strength is also essential in India's power transmission market and for that, the firms need to have access to significant financial resources to bid for large projects and compete with other players in the market. Additionally, companies need to have a strong balance sheet to provide them with the flexibility to invest in new technologies and expand their operations. Companies that have access to substantial financial resources and a strong balance sheet can gain a competitive advantage in the market.

Experienced Management Team:

Our Promoters and Directors have been involved in the day-to-day business and management of our Company. We have a highly qualified, experienced, and dedicated management team and a skilled workforce. Additionally, we enter into contracts with sub-contractors to engage workmen on a contract labour basis from time to time. We believe that a large pool of engineering and technical workers is essential for the efficient and effective execution of our projects, and our highly experienced staff with expertise in various types of construction projects ensures that our projects are staffed with the most capable people. We believe that our management team's experience and their understanding of the infrastructure industry will enable us to continue to take advantage of both current and future market opportunities.

OUR STRATEGIES

Our vision is that we believe "Customer is the core of all the endeavors". Thus the primary objective of the company is up-holding the value of the "customer". Our Company strives to provide "solutions" rather than "selling of products."

Further widening of our customer base

With the growing opportunities available in the market, we will endeavour to continue to grow our business by adding new customers in existing and new geographies and also new market segments & products. We are also making efforts and diagnosing the domestic markets for our own brand product.

Reduction of operational costs and achieving efficiency

Apart from expanding business and revenues we have to look for areas to reduce costs and achieve efficiencies in order to remain a cost competitive company. We focus on power reduction by use of latest technology and modification in production process. Wages control is another tool where we are using latest technology in machineries and automated the production process, thus resulting in reduced man power requirement.

To build-up a professional organization

We believe in transparency, commitment and coordination in our work, with our suppliers, customers, government authorities, banks etc. We have a blend of the experience and the sufficient staff for taking care of our day to day operations. We also consult with external agencies on a case to case basis on technical and financial aspects of our business.

Focus on cordial relationship with our Suppliers, Customer and employees

We believe that developing and maintaining long term sustainable relationships with our suppliers, customers and employees will help us in achieving the organizational goals, increasing sales and entering into new markets.

Optimal Utilization of Resources

Our Company constantly endeavors to improve our production process, skill up-gradation of workers, modernization of machineries to optimize the utilization of resources. We analyze our existing material procurement policy and engineering processes to identify the areas of bottlenecks and take corrective measure wherever possible. This helps us in improving efficiency and putting resources to optimal use.

HEALTH, SAFETY AND ENVIRONMENT

We are committed to globally accepted best practices and compliance with applicable health, safety and environmental legislation and other requirements in our operations. In order to ensure effective implementation of our practices, we have implemented a safety, health and environment policy wherein we have committed to, inter alia, the maintenance of a safe workplace and providing the necessary training to employees in our workplace. We believe that we comply in all material respects with applicable occupational health and safety laws, regulations and other contractual requirements relevant to health and safety of employees and subcontractors at our project sites and manufacturing facilities.

COMPETITION

The construction industry in India is very competitive. Our competition depends on various factors, such as the type of project, total contract value, potential margins, complexity, location of the project and risks relating to revenue generation. While service quality, technical ability, performance record, experience, health and safety records and the availability of skilled personnel are key factors in client decisions among competitors, price often is the deciding factor in most tender awards. Thus we believe that our large network and comprehensive service offering as well as our established reputation enables us to compete effectively in the market.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Companies Act, 2013. We are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statement that, individually or in aggregate, makes it probable that the economics decisions of a reasonably knowledgeable user of the financial statement may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statement.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Annexure – B to the Auditors’ Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **GODHA CABCON & INSULATION LIMITED** as of 31st March, 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting of the company.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanation given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Indian trademark law permits the registration of trademarks for goods and services. The Trade Marks Act, 1999 (“**Trademark Act**”) governs the statutory protection of trademarks and for the prevention of the use of fraudulent marks in India. An application for trademark registration may be made by individual or joint applicants and can be made on the basis of either use or intention to use a trademark in the future. Once granted, trademark registration is valid for ten years, unless cancelled. If not renewed after ten years, the mark lapses and the registration have to be restored. The Trademark (Amendment) Act, 2010 has been enacted by the government to amend the Trademark Act to enable Indian nationals as well as foreign nationals to secure simultaneous protection of trademark in other countries. It also seeks to simplify the law relating to transfer of ownership of trademarks by assignment or transmission and to align the law with international practice.

The Patents Act, 1970

The Patents Act, 1970 (“**Patents Act**”) governs the patent regime in India. Being a signatory to the Agreement on Trade Related Aspects of Intellectual Property Rights, India is required to recognise product patents as well as process patents. In addition to broad requirement that an invention satisfy the requirements of novelty, utility and non-obviousness in order for it to avail patent protection, the Patents Act further provides that patent protection may not be granted to certain specified types of inventions and materials even if they satisfy the above criteria.

VI. Other laws

The Indian Contract Act, 1872

The Indian Contract Act, 1872 (“**Contract Act**”) codifies the way in which a contract may be entered into, executed, implementation of the provisions of a contract and effects of breach of a contract. A person is free to contract on any terms he chooses. The Contract Act consists of limiting factors subject to which contract may be entered into, executed and the breach enforced. It provides a framework of rules and regulations that govern formation and performance of contract. The contracting parties themselves decide the rights and duties of parties and terms of agreement.

The Specific Relief Act, 1963

The Specific Relief Act, 1963 (“**SR Act**”) is complimentary to the provisions of the Contract Act and the Transfer of Property Act, as the Act applies both to movable property and immovable property. The SR Act applies in cases where the Court can order specific performance of a contract. Specific relief can be granted only for purpose of enforcing individual civil rights and not for the mere purpose of enforcing a civil law. ‘Specific performance’ means Court will order the party to perform his part of agreement, instead of imposing on him any monetary liability to pay damages to other party.

The Companies Act, 2013

The Companies Act, 2013 (“**CA 2013**”) has been introduced to replace the existing Companies Act, 1956 in a phased manner. The Act primarily regulates the formation, financing, functioning and winding up of companies. The CA 2013 prescribes regulatory mechanism regarding all relevant aspects, including organizational, financial and managerial aspects of the company. It plays a fundamental role in protecting the investors and the shareholders and balances it with different aspects of company autonomy. The Ministry of Corporate Affairs has also issued Rules complementary to the Act, establishing the procedure to be followed by the companies in order to comply with the substantive provisions of the CA 2013.

Competition Act, 2002

The Competition Act, 2002 (“**Competition Act**”) aims to prevent anti-competitive practices that cause or are likely to cause an appreciable adverse effect on competition in the relevant market in India. The Competition Act regulates anticompetitive agreements, abuse of dominant position and combinations. The Competition Commission of India which became operational from May 20, 2009 has been established under the Competition Act to deal with inquiries relating to anti-competitive agreements and abuse of dominant position and regulate combinations. The Competition Act also provides that the Competition Commission has the jurisdiction to inquire into and pass orders in relation to an anti-competitive agreement, abuse of dominant position or a combination, which even though entered into, arising or taking place outside India or signed between one or more non-Indian parties, but causes an appreciable adverse effect in the relevant market in India.

The Consumer Protection Act, 1986

The Consumer Protection Act (“**COPRA**”) aims at providing better protection to the interests of consumers and for that purpose makes provisions for the establishment of authorities for the settlement of consumer disputes. The COPRA provides a mechanism for the consumer to file a complaint against a trader or service provider in cases of unfair trade practices, restrictive trade practices, defects in goods, deficiency in services; price charged being unlawful and goods being hazardous to life and safety

when used. The COPRA provided for a three tier consumer grievance redressal mechanism at the national, state and district levels.

The Transfer of Property Act, 1882

The Transfer of Property Act, 1882 (“**TP Act**”) as amended, establishes the general principles relating to transfer of property in India. It forms a basis for identifying the categories of property that are capable of being transferred, the persons competent to transfer property, the validity of restrictions and conditions imposed on the transfer and the creation of contingencies and vested interest in the property. It also provides for the rights and liabilities of the vendor and purchaser in a transaction of sale of land.

The Registration Act, 1908

The Registration Act, 1908, as amended, has been enacted with the objective of providing public notice of the execution of documents affecting, *inter alia*, the transfer of interest in immovable property. The purpose of the Registration Act is the conservation of evidence, assurances, title and publication of documents and prevention of fraud. It details the formalities for registering an instrument. Section 17 of the Registration Act identifies documents for which registration is compulsory to bring the transaction to effect and includes, among other things, any non-testamentary instrument which purports or operates to create, declare, assign, limit or extinguish, whether in present or in future, any right, title or interest, whether vested or contingent, in any immovable property of the value of one hundred rupees or more, and a lease of immovable property for any term exceeding one year or reserving a yearly rent.

The Indian Stamp Act, 1899

Under the Indian Stamp Act, (“**Stamp Act**”)1899, as amended stamp duty is payable on instruments evidencing a transfer or creation or extinguishment of any right, title or interest in immovable property. Stamp duty must be paid on all instruments specified under the Stamp Act at the rates specified in the schedules to the Stamp Act. The applicable rates for stamp duty on instruments chargeable with duty vary from State to State.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

There are two routes through which foreign investors may invest in India. One is the 'automatic route', where no government approval is required under Indian foreign exchange laws to make an investment as long as it is within prescribed thresholds for the relevant sector. The other route is the 'government route', where an approval is required under foreign exchange laws from the relevant industry regulator, prior to the investment.

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise way such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2020 ('**FDI Circular 2020**'), which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2020 will be valid until the DPIIT issues an updated circular.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI. The FDI Circular 2020, issued by the DPIIT, consolidates the policy framework in place as on October 15, 2020, and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that:

1. The activities of the investee company fall under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI (SAST) Regulations;
2. The non-resident shareholding is within the sectoral limits under the FDI Policy; and
3. The pricing is in accordance with the guidelines prescribed by SEBI and RBI.

No investment under the FDI route (i.e., any investment which would result in the investor holding 10% or more of the fully diluted paid-up equity share capital of the Company or any FDI investment for which an approval from the government was taken in the past) will be allowed in the Issue unless such application is accompanied with necessary approval or covered under a pre-existing approval from the government. It will be the sole responsibility of the investors to ensure that the necessary approval or the pre-existing approval from the government is valid to make any investment in the Issue.

Our Company will not be responsible for any allotments made by relying on such approvals. Please also note that pursuant to Circular no. 14 dated September 16, 2003, issued by RBI, Overseas Corporate Bodies have been derecognized as an eligible class of investors and RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003. Any Investor being an OCB is required not to be under the adverse notice of RBI and in order to apply for this issue as a incorporated non-resident must do so in accordance with the FDI Circular 2020 and Foreign Exchange Management (Non-Debt Instrument) Rules, 2019. Further, while investing in the Issue, the Investors are deemed to have obtained the necessary approvals, as required, under applicable laws and the obligation to obtain such approvals shall be upon the Investors. Our Company shall not be under an obligation to obtain any approval under any of the applicable laws on behalf of the Investors and shall not be liable in case of failure on part of the Investors to obtain such approvals.

The above information is given for the benefit of the Applicants / Investors.
