Company Background

Sanstar Ltd (Sanstar) was founded in 1982 and manufactures specialty plant-based products and ingredient solutions for food, pet food and other industrial applications in India. Its product portfolio includes liquid glucose, dried glucose solids, maltodextrin powder, dextrose monohydrate, native maize starches, modified maize starches, and by-products such as germ, gluten, fiber and fortified proteins.

Objects of the Issue

➢ Fresh Issue of up to 4,18,00,000 Equity Shares and Offer for Sale of up to 1,19,00,000 Equity Shares by the selling shareholders.

> Funding the capital expenditure requirement for the expansion of the Dhule Facility for an amount of Rs 181.55 Cr

➤ Repayment and/or pre-payment, in part or full, of certain borrowings availed by the Company amounting to Rs 100 Cr.

General Corporate Purposes

<u>Key Points</u>

Sanstar's products find use as ingredients, thickeners, stabilizers, sweeteners, emulsifiers, and additives (including in baked goods, confectionery, pasta, soups, ketchup, sauces, creams and desserts).

> Sanstar has two manufacturing facilities covering a total area of 10.68 million square feet at Dhule in the state of Maharashtra and Kutch in the state of Gujarat. With an installed capacity of 3,63,000 tons per annum (1,100 tons per day), the company is the fifth largest manufacturer of cornbased specialty products and ingredients in India.

Sanstar exports its products to 49 countries including Asia, Africa, the Middle East, America, Europe and Oceania. The company also has a pan-India presence where its products are sold in 22 states.

> An ever increasing global demand for plant-based products and Sanstar's strategic capacity expansion at its Dhule facility, provides an ideal platform for a long term growth trajectory.

➤ Focus on high margin value added products and new launches for specific industries is expected to drive margin expansion for Sanstar which shall be further complemented by a reduction in debt.

> Sanstar's revenue from operations increased from Rs 504.40 Cr in fiscal 2022 to Rs 1,067.27 Cr in fiscal 2024 at a compound annual growth rate (CAGR) of 45.46%, according to its restated consolidated financial statements. Between fiscal years 2022 and 2024, their profit after tax climbed at a compound annual growth rate (CAGR) of 104.79%, from Rs 15.92 Cr to Rs 66.77 Cr.

Recommendation ---

Sanstar's financial performance is driven by its established market position in the industry, increasing global footprint, high entry barriers, expanded manufacturing capacities to capture additional market share, and long-lasting customer relationships, which enable it to tap the significant opportunities in existing and future products. India finds itself in a sweet spot with respect to the growth in the Specialty Chemicals segment accentuated further by the China Plus One Policy. In lieu of a steady growth in Sanstar's operations we would hence recommend a SUBSCRIBE to the issue.

- **Demand:-** The increasing demand of maize based ingredient in food and beverage, pharma and animal nutrition, adhesive, paper, textile, etc from developing economies like India is likely to increase the consumption of these ingredient.
- **Exports:-** India has always been a net exporter of Maize starch. Globally, India is the largest exporter of maize starch with 20% of share in 2022. South-East Asian countries are the major importers of maize starch from India.
- **Rank:** India is major producer of maize globally. It ranked 6th in the world's maize production and 4th in terms of maize acreage. Across 205.87 Mn Ha, 1.21 billion MT of maize was produced worldwide. Maize is 3rd most grown cereal after paddy and wheat in India. Rising demand of maize for Ethanol production will also push Indian farmer to increase the productivity in coming years. Thus, abundance in maize availability is allowing many wet millers to increase the plant capacities.
- **Uses:-** Starch has multiple uses across industries. Food industry is largest consumer of maize based specialty products and ingredients solutions.
- **Changing Lifestyle:** With the changed lifestyles, ready to eat/cook foods are gaining popularity. Baby food, chips, baked goods, drinks, candies, sauces, soups, noodles, pasta and ready to eat snacks are some sectors where consumption of starch is increasing.

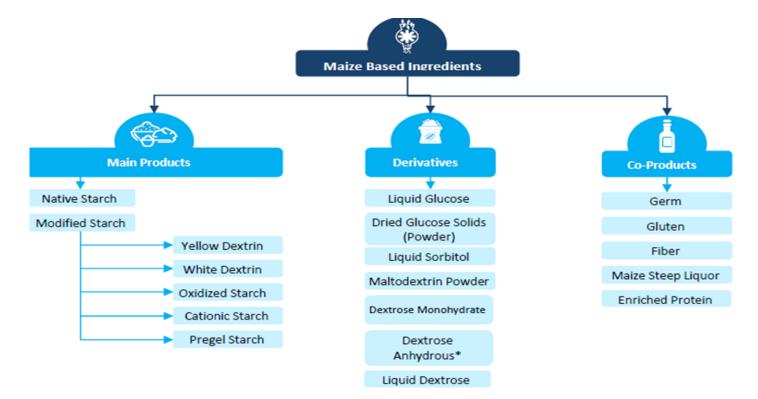

Company Overview

Background

- **Incorporation:-** Incorporated on February 26, 1982, **Sanstar Ltd** is one of the manufacturers of plant-based specialty products and ingredients solutions in India for food, animal nutrition and other industrial applications.
- **Group Companies:-** Sanstar Group (SG) comprises of 2 entities, namely Sanstar Ltd and Sanstar Bio Polymers Ltd (SBPL). The group is engaged in manufacturing of maize based specialty products and ingredients solutions and its co-products such as Gluten, Germ and Bran. Sanstar Ltd and Sanstar Biopolymers Ltd, were merged on November 23, 2023.
- **Products:-** Sanstar manufactures maize starch, dextrin, modified starches, liquid glucose, high maltose maize syrup, maltodextrin, dextrose monohydrate, sorbitol, gluten, germ and steep liquor. The products find application in Textiles, Paper, Pharmaceutical, Food, Adhesives, Animal Nutrition & many other industries. Noval application such as bio polymers, bioethanol, biomaterials, mock meats also boost the demand for starch.
- **Plants**:- Sanstar's manufacturing facilities are in Gujarat and Maharashtra which are the major states producing maize in India. Post the expansion, Sanstar will have aggregate capacity of 2,100 MTD and be 3rd largest player in maize base speciality products and ingredient solutions providers industry. Sanstar's manufacturing facility at Kutch is registered with the USFDA for this facility in August 2023 which is valid upto December 2024. This manufacturing facility at Kutch, Gujarat had commenced operations in the year 2006. It is located on an aggregate land area of 2.77 Million Sq Feet of which 1.84 Million Sq Feet is available for future expansion.
- **Raw Material sourcing:-** Sanstar sources its maize through various channels, including mandi procurement, local stock houses, and direct farmer buying. This multifaceted approach allows Sanstar to ensure a consistent supply of high-quality maize while supporting local farmers and communities.
- **Clientele:** Sanstar has a reputed clientele of companies such as AB Mauri, ITC, Capital Foods, Hindustan Unilever, Godrej Agrovet and Zydus wellness in domestic market. Sanstar has a strong presence in states of Maharashtra, Gujarat, and Andhra Pradesh.
- **Presence:** Sanstar is making strides in markets of Telangana, Tamil Nadu, Madhya Pradesh, and Bihar. In exports markets, Sanstar supplies starch and other products to ~49 countries with Malaysia, Kenya and Vietnam being the top importers.
- **R&D:-** Sanstar has in-house Research and Development team. It has developed san-o-gel pre-gelatinized starch and san-o-mould (mould starch) having their application in oil & gas industry and food industry respectively.

Rationale For Investment

YOUR TRUST IS OUR WEALTH

AUM CAPITAL

- 1. <u>One of the largest manufacturers of maize based speciality products and ingredient solutions in India with diverse</u> product portfolio
- Incredible growth till now:- Sanstar is the 5th largest manufacturer of maize based speciality products and ingredient solutions in India. They commenced commercial manufacturing from their manufacturing facilities located at Kutch, Gujarat and Dhule, Maharashtra in the year. 2006 and 2017 respectively and has grown their business to the current scale with an installed capacity of 3,63,000 TPA. They have grown with Revenue and PAT CAGR of 45% and 105% over Fiscal 2022-2024.
- **Diversified product portfolio:-** Sanstar offers diversified portfolio of speciality products and ingredient solutions including liquid glucose, dried glucose solids, maltodextrin powder, dextrose monohydrate, native maize starch, modified maize starches and co-products like germs, gluten, fiber and enriched protein, amongst others.
- 2. <u>Riding the growth in the Specility Chemicals segment as a whole</u>
- End user industries:- Sanstar's business is directly linked to the growth in end user industries including food and beverages, animal nutrition, pharmaceuticals, adhesives, personal care, paper, textiles, among others.
- **Increasing demand for maize:-** The increasing demand of maize based speciality products and ingredient solutions in food and beverages, animal nutrition, pharmaceuticals, adhesives, paper, textiles, etc. from developing economies like India is likely to increase the consumption of these ingredients.
- 3. <u>State of the art manufacturing facilities</u>
- **Strategically located:-** Sanstar's manufacturing facilities are strategically located in terms of both proximity to their raw material sources i.e. maize harvesting belts as well as seaports of Mundra, Kandla, Hazira and Nhava Sheva, for exports of their finished products. The Dhule Facility is the latest, sustainability focused, state of the art, automated facility and has been designed by their in-house team.

4. <u>Global presence and high entry barriers</u>

- **Exports:** Sanstar sells their products to 49 countries across Asia, Africa, Middle East, Europe, North America, South & Central America and Oceania regions during Fiscal 2024. Their top export destinations include Malaysia, Vietnam, Kenya, Indonesia, United Arab Emirates, Nigeria, Sri Lanka, Ghana, Thailand, among others.
- Entry barriers:- The maize-based speciality products and ingredient solutions industry in which the company operates has high entry barriers and additionally, the B2B nature of their business creates significant exit barriers for their customers as well. Their products and the processes involved, are measured against high quality standards, product approval systems and specifications.

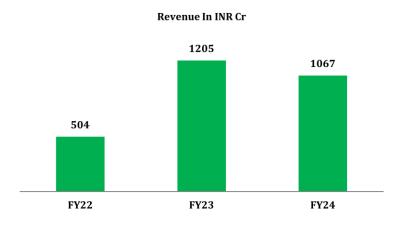

5. Large, diversified customer base with long lasting relationships

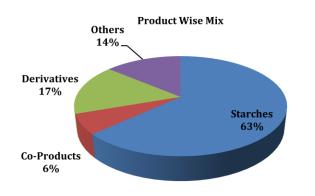

- **Strong entrenched relationship:-** Sanstar serves over 525 customers. They have also established long term relationships where 96 customers had placed repeat orders with them in each of the previous 3 Fiscals.
- **Customer loyalty:-** Sanstar has earned customer loyalty by approachable management addressing their concerns and relationships developed by the marketing team; nurturing customer centric culture that focuses on quality assurance and performance standards; and offering modern, automated facilities with an emphasis on sound environmental and sustainability focused measures and practices.
- 6. Foray into manufacturing of Ethanol through leveraging the maize sourcing capabilities
- **GOI Mandate:** The GoI has chosen to push up the 20% Ethanol blend objective in petrol. At a 20% blending level, the demand for ethanol is expected to rise to 1,016 billion litres by 2025. Consequently, the value of the Ethanol sector will increase from about Rs 9,000 Cr to over Rs 50,000 Cr, i.e. a growth of more than 500%. Ethanol distillation capacity is expected to grow by more than 3 times to 1,500 Crore litre annually.
- **Position of Sanstar:** Sanstar has established strong maize sourcing capabilities over the period, leveraging both the relationships with farmers, particularly in the states of Maharashtra and Madhya Pradesh, which cumulatively account for 25% of the maize production in India, as well as sourcing from traders and aggregators of maize across the country. These capabilities along with their experience in the value chain of manufacturing speciality products and ingredient solutions could be well leveraged to foray into and scale up the production of Ethanol based on maize grain.
- 7. Increase the revenue contribution from derivative products and scale up organic ingredients segment
- Increase the share of derivative products:- Sanstar intends to grow the contribution from sale of derivatives to increase their margins and returns going forward. It proposes to expand manufacturing capacity of Liquid Glucose and Dextrose Monohydrate at their Dhule plant by 300 TPD to address the growing demand and capture the market share in derivatives. Additionally, it is setting up manufacturing capacity of 50 TPD of Dextrose Anhydrous, as part of their proposed expansion plan.
- **Growth Drivers for Organic Starches:-** Increasing consumer consciousness for clean label food products; Stringent regulations on synthetic additives in food, pharma, and nutraceutical industry as well as changing lifestyle and food preferences.
